

PHILIPPINES TARIFF.

Launching of the Bill Will Start an Avalanche of Debate in the Senate.

WHOLE QUESTION TO BE AIRE.

Democratic Members to Take Advantage of the Opportunity For the Presentation of Their Views. The Week in Congress.

Washington, Jan. 20.—The Philippine question will be precipitated on the senate when the committee on the Philippines, which has had the house Philippines tariff bill under consideration, reports the measure. The bill, with its committee amendments, will be sent to the printer, and Senator Lodge, chairman of the committee, will give notice of his intention to call it up on the following day and ask for its continued consideration until finally disposed of. There is a general acquiescence of Republican senators in this program. There are other important measures to be presented at the proper time by administration senators, but the present agreement is to pass the Philippine bill first, as being of the most immediate importance.

A long discussion of the bill is expected by the Republicans and promised by the Democrats. The Democratic leaders say they do not expect to be able to defeat the bill, and disclaim all intention to delay a vote unnecessarily, but they say frankly that they consider that it affords an opportunity for the presentation of their view of the entire Philippine question which they can not afford to let pass. Senator Lodge will open the discussion with a brief speech on Tuesday in which he will discuss the merits of the bill and also the necessity for early action. He will be followed by some member of the Democratic representation on the committee, who will outline the Democratic position. He in turn will be followed by other Democratic senators. Many of the senators on the Democratic side are expected to be heard before final action shall be secured. Indeed the prediction is freely made that a vote will not be obtained within a month.

Senator Frye probably will report the ship subsidy bill, but he will not attempt to secure consideration for it for the present, and probably not until after the Philippine bill shall have been disposed of. The report of the committee on interoceanic canals is expected later in the week, but may be delayed.

During the week Senator Nelson will make renewed effort to secure the passage of his bill for the creation of a department of commerce. The opposition to it probably will be continued for the present. During the early part of the week Senator Cullom will address the senate on the treaty-making power of the president. The speech is expected to have a bearing upon the reciprocity treaties.

In the House.

Washington, Jan. 20.—The calendar of the house of representatives is still rather meager in important bills, so that there does not promise to be a heavy pressure of business during the coming week. The urgent deficiency appropriation bill will occupy most of the time during the first few days of the week. It carries a total of \$16,700,000, which is rather large for a deficiency measure, and it is expected that two days will be occupied in its consideration. The bills ready for consideration are not of sufficient importance to secure definite time in advance, except in the case of the Hill bill for the exchangeability of silver and gold. It will be some time before opinion is sufficiently matured on this measure to induce the leaders to set a time for consideration.

The Democratic members of the house committee on coinage, weights and measures have agreed on a minority report on the bill directing the secretary of the treasury "to exchange gold for legal tender silver dollars," and the report will be presented to the house by Mr. Shafroth. The report takes the position that the passage of the bill is certain to produce financial disturbances.

Order of Railway Employees.

San Francisco, Jan. 20.—The convention of the United Brotherhood of Railway Employees, which has been in session the past week, has adjourned. The most important matters which came before it in its closing hours were the election of officers and the adoption of an insurance plan. Three features, covering every possible contingency, were decided upon. The convention provided for the payment of life insurance of its members on the annuity basis and straight life insurance, and also made provision for the payment of insurance to those who became permanently disabled by

accident or old age. Officers were elected to serve two years. Trainmaster George Estes of Roseburg, Or., was made president.

VICTIM OF THE CODE.

Challenger Couldn't See to Shoot and Was Fatally Wounded.

Hanover, Prussia, Jan. 20.—Herr Von Bennigsen, landrath of Hanover, and son of the noted politician Rudolf Von Bennigsen, died as the result of a bullet wound in the breast, sustained in a duel fought Thursday with Herr Falkenhagen, a tenant of the royal estate near Springe.

The duel was the outcome of the intimacy of Herr Falkenhagen with Frau Von Bennigsen. The club to which Herr Von Bennigsen belonged informed him of the stories in circulation. Monday Frau Von Bennigsen visited Hanover and returned to Springe in the evening accompanied by Herr Falkenhagen. The next morning Herr Von Bennigsen ordered his wife to leave his house and then challenged Herr Falkenhagen. The conditions of the duel were three rounds with pistols at ten paces. Herr Von Bennigsen, who was short-sighted, was shot in the first round. His brother witnessed the duel.

Gambler Held Up.

Omaha, Jan. 20.—Two robbers held up a dozen men in a gambling room in the heart of the city and secured the cash box and \$200 from the habitués. They were captured ten minutes later and locked up. They gave the names of Frank Williams and Frank Jones. Neither of the men was masked. They drew their revolvers and ordered the men in the room to hold up their hands, secured their money and the cash box and fled. A policeman gave chase, firing several shots. A riot call was turned in. One of the robbers ran out of an alley into the arms of a policeman. The other was found in a hallway. At the station both men admitted their identity, and said they had lost their money in the place and thought their game was as fair as that of the gambling house. All of the stolen money was recovered.

Coal Company in Straits.

Knoxville, Jan. 20.—Marcus Hamilton of Johnson City, Tenn., filed a petition in the federal court here seeking to have the Virginia Iron, Coal and Coke company declared bankrupt. The company has been in the hands of a receiver several months. The petition alleges that the company has bonds outstanding in the sum of \$9,975,000 at 5 per cent, held by the Manhattan Trust company of New York and secured by first mortgage; that it owes notes aggregating about \$575,000, and is in default for interest on the Manhattan Trust company's bonds. The company was organized in 1898.

Girl Suicides.

Toledo, Jan. 20.—Louise Avery, 23, of Delaware, O., committed suicide in a horrible manner here. Her brother found her lying dead upon her bed with the barrel of a shotgun held by one hand against her temple. Evidences were found that the woman had taken Paris green and morphine, but had finally resorted to the shotgun. The entire top of her head was blown off. The refusal of a man to marry her is said to have prompted the deed.

Another British Boat Wrecked.

Funchal, Island of Madeira, Jan. 20.—The British steamer Lagos, from Liverpool, went ashore at Las Desertas group of islets in the Atlantic, to the southeast of Madeira, during a fog. The crew and passengers were saved, and it is hoped to recover the mails the vessel was carrying. The Lagos is owned by the British and African Steam Navigation company (Elder, Dempster & Company), and was built at Glasgow in 1883.

Cincinnati Invites the Prince.

Cincinnati, Jan. 20.—After consulting the citizens Mayor Julius Fleischmann has decided to extend, through Secretary Hay and the German ambassador at Washington, an invitation to Prince Henry of Prussia to visit Cincinnati. While there is a large German population here, the Germans are no more enthusiastic in the movement than others. All leading citizens are very enthusiastic for the visit.

To Ratify the Sale.

Paris, Jan. 20.—It is explained here that if the sale of the property of the Panama Canal company is concluded jurists will be appointed to decide whether a ratification by a French tribunal is required, or whether a vote of a general majority of the stockholders will suffice. In any case, however, it will be a matter of form. No obstacle is anticipated on that score.

Murdered and Robbed.

Greenleaf, Kan., Jan. 20.—C. E. Holt, a wealthy farmer, and his niece were found murdered at their home here. The murder was committed by a burglar who robbed the house. A horse and buggy belonging to the dead man was stolen, and it is supposed the murder used this to make his escape.

CHAFFEE SUMS IT UP.

Situation in the Philippine Islands From a Military Point of View.

DISTURBED AREA CONSIDERABLE.

Work of Pacification Difficult, Due to a Variety of Circumstances. Band of Soldiers Missing. Recent Encounters.

Manilla, Jan. 20.—General Chaffee, in the annual report which has just been issued, sums up the situation from the military point of view by saying that the provinces of Batangas and Laguna, in southern Luzon, and the islands of Samar, Mindoro and Cebu, constitute the disturbed area in which hordes of insurgents in force are to be found. General Chaffee says the prolongation of guerrilla warfare is due to the physical character of the country and to the nature of the warfare carried on by the insurgents, who in the same hour pose as friends and act as enemies; to the humanity displayed by the American troops, of which the insurgents take advantage; and to the fear of assassination on the part of those natives who are friendly disposed toward the Americans should they give the latter information concerning the movements or whereabouts of the insurgents.

Municipal and provincial governments are being organized. These governments have not yet received a practical trial. They constitute the only certain and reliable method of ascertaining the progress of the Filipinos toward self-government.

In the same report Judge Advocate Groesbeck says the suppression of brigandage will probably be one of the most trying problems of the future. If the military arm be left free to deal with the marauders, there is no doubt of their final suppression. But the presence of the civil government complicates the situation considerably. With the civil and military authorities working in harmony, says Judge Groesbeck, no evil results should be anticipated.

A report has been received that a dug-out canoe, in which 11 men of Company 1 of the Second Infantry were traveling, is missing and is probably lost. It is believed the men either perished or were captured.

An important capture was made in Laguna province, Luzon, when eight men of the Eighth Infantry captured a woman insurgent named Aqueda Kahabagan. She recently commanded an insurgent force of 800 men, 300 of whom carried rifles, while 500 were armed with bolos. For six years past she has been leading bands against the Spaniards and the Americans.

General J. Franklin Bell is still active in Batangas province, Luzon. A recent engagement in this province, in which the enemy were defeated with severe loss, resulted in wounding of one American officer and the killing of one private.

WENT IN A FLASH.

Locomotive of Fast Train Exploded Causing a Wreck.

Victor, Ia., Jan. 20.—As the Denver limited passenger train No. 5 of the Rock Island road was passing through this town the boiler of the engine exploded, resulting in the death of W. Williams of Brooklyn, Ia., engineer, and E. Hoar of Valley Junction, Ia., fireman. A brakeman and two porters were injured. The accident took place within 250 feet of the depot, and the noise of the explosion aroused every person in the town. The force of the explosion threw the seven coaches of the train from the track and overturned the Des Moines Pullman. Fortunately the passengers were uninjured. Pieces of the wrecked engine were strewn a distance of 200 feet, and the boiler was found 150 feet from the scene of the accident.

The cause of the accident will never be known, owing to the death of the engineer and fireman.

Volcano and Earthquake.

City of Mexico, Jan. 20.—A telegram to the government observatory announces that the volcano of Colima is again active, and scientific men connect this fact with the prevalence of seismic phenomena. Renewed earthquake shocks were reported from various parts of the country. Governor Mora of Guerrero has personally taken charge of the ruined city of Chilpancingo. The populace is camping out, surrounded by troops, and perfect order reigns. The city will have to be thoroughly rebuilt. More bodies continue to be found as the district is examined by soldiers.

Butte, Mont., Jan. 20.—Judge William H. Dewitt, a distinguished member of the Montana bar, is dead of acute heart trouble. He was associate justice of the Montana supreme court for several years, and in 1900 was a member of the national Republican committee for this state.

MORGAN COMBINES.

Deals Affecting Electrical Works and Several Steamship Lines.

New York, Jan. 20.—From Liverpool comes again the report that J. Pierpont Morgan has under way a deal of vast importance to the electrical world, involving a combined capital of \$50,000,000. It is claimed the Westinghouse Electric Manufacturing company, the Pittsburg and Manchester and the General Electric company, in which Morgan is the controlling factor, are to be amalgamated and operated under a community of interest plan. The company's branches in France and Germany will, according to report, also pass into the hands of one central organization.

The report that J. Pierpont Morgan's proposed steamship combination would embrace the American, Red Star, White Star, Atlantic Transport, Leyland, Wilson and Dominion lines, and probably the Cunard, have received confirmation from England, cables from the Liverpool Journal of Commerce being freely quoted.

A representative of Morgan & Co. denies that Morgan is organizing a great steamship company to absorb the American and other lines.

A cablegram Berlin says the directors general of the North German Lloyd and Hamburg-American Steamship company will come to the United States together in February.

Reported Engagement.

Willemstad, Island of Curacao, Jan. 20.—The Venezuelan insurgents who have concentrated on the peninsula of Paraguana, on the east side of the gulf of Maracaibo, inaugurated a movement against the government. The insurgents in the vicinity of Uchiro have also begun operations against President Castro. It is reported here that a serious engagement between the insurgents and the government forces has taken place not far from Barquisimeto, in the state of Lara, in which the insurgents were victorious, and that there has been fighting between the insurgents and the soldiers of the government in the streets of Maracaibo.

Clark Coming on Secret Mission.

London, Jan. 20.—Dr. G. B. Clark, ex-member of parliament for Caithness and formerly consul-general of the Orange Free State, will arrive in New York on the steamship Ivernia on some mysterious mission. His exertions in the Boer cause have evoked bitter animosity among the "Jingoes," and it is now alleged that he has gone to Washington to influence President Roosevelt toward intervention. This object was attributed to him in an interview by a correspondent of the Paris Matin, but Dr. Clark denied having said so. Thereupon the correspondent, in a letter to The Times, repeated his statement.

Don't Want to Be Annexed.

St. Thomas, D. W. I., Jan. 20.—The following cablegram, signed by a large number of persons, has been sent to J. H. Drenitzer, Danish minister of foreign affairs: "St. Croix, D. W. I.—The planters, hurgiers and property holders of this island urgently protest against the opinion of American capitalists being considered an adequate expression of the interests of this island, and petition your influence to keep St. Croix in the possession of Denmark on the sure assumption that Denmark can find the means to make the cultivation of sugar, now in a most critical position, remunerative to the island."

Can Run the Blockade.

New Orleans, Jan. 20.—Captain L. De Villiers, late from South Africa, wishes to correct the assertion attributed to him that no men willing to fight for the Boers could be landed in South Africa. The assertion made by Captain De Villiers was that a body of men could not be landed together, owing to British martial law regulations, but men anxious to fight for the Boer cause have found and are finding their way there every day, as the statistics of Lord Kitchener show that he has captured, killed and wounded 83,000 Boers, while the total population is only 110,000.

Diamonds Found in Montana.

Lewistown, Mont., Jan. 20.—Diamonds said to be of the first water have been found in the northern part of Fergus county, according to report. News of the discovery caused great commotion among prospectors in this region, and dozens of them are on their way to what they believe is a new land of riches. The discovery was made on Blood creek, in a mountainous country, which in its geological nature is said to resemble that about Kimberly, South Africa.

Brenham, Tex., Jan. 20.—Professor W. C. Crossman and his 15-year-old son, Willie, were caught on a trestle one mile north of town and run down by a passenger train. Both were instantly killed.

London, Jan. 20.—Sir Ellis Ashmead Bartlett died after an operation for appendicitis.

GIRL USED HER GUN

When Her Request For Ragtime Music Was Ignored at a Dance.

KILLED TWO MEN, WINGED A THIRD

Monthly Breakdown in a West Virginia Mining Town Culminates in a Terrible Tragedy—The Day's Record of Crime.

Montgomery, W. Va., Jan. 20.—William Slaughter and Ralph Johnson, colored musicians, were shot and instantly killed, and Powell Calloway, white, mortally wounded at Morris Creek, this county. Lillian Williams, it was who used the revolver with such deadly effect, each of the four bullets she fired taking effect save one. The scene of the tragedy was at a dance six miles south of here, in the heart of the mining regions. It was payday at the mines, and as usual the monthly dance was given, colored people coming for miles around and even many whites dropping in to witness the festivities. The Williams woman entered the hall evidently under the influence of liquor. Proceeding to the center of the room, she ordered the musicians to play some ragtime music and play it quick. When her demand was not complied with she whipped out a revolver from under her wrap and began firing at the orchestra. Slaughter and Johnson were almost instantly killed, the former getting a bullet in the mouth and the latter one in the left breast. Calloway was an onlooker at the dance, and one of the bullets intended for a musician penetrated his back. Physicians pronounce his wound fatal. The murderers escaped lynching only by the timely arrival of officers, who succeeded in getting her away and lodging her in jail at this place.

Syrian's Wad Stolen.

Kirksville, Mo., Jan. 20.—I. Solomon, a Syrian, living at Keokuk, Ia., was held up and robbed of a money belt containing \$8,500. Solomon had sold out his business in Keokuk and was looking for a location here. Two fellow countrymen have been arrested charged with the robbery. Solomon says on of them held him while the other cut the belt from his waist. The money has not been recovered.

Money Package Stolen.

Hartford, Conn., Jan. 20.—The office of the Adams Express company in the Union station was robbed of a transfer money pouch which was to have been shipped to Boston. It contained all the money from points on the Highland division as far west as Poughkeepsie, N. Y., probably \$1,000. William Oliver, a former employee of the company, was arrested on suspicion.

PRINCE HENRY

Discusses His Plans of Travel With Ambassador White.

Berlin, Jan. 20.—Prince Henry of Prussia, in talking over his plans of travel with United States Ambassador White at the dinner given by Baron Von Richthofen, the German minister of foreign affairs, to Prince and Princess Henry the American ambassador and Mrs. White, John B. Jackson, secretary of the embassy, and a number of other distinguished persons, said he was especially pleased with President Roosevelt's selection of Rear Admiral Robley D. Evans to receive him in the United States, as there was an old sailors' friendship between them. The prince told Mr. White that he would call upon him some afternoon this week, have a cup of tea and continue their talk about his trip to America. Prince Henry, who is considerably taller than Emperor William, will be surrounded on his trip to the United States by very large and tall men.

Masons' Golden Jubilee.

Cincinnati, Jan. 20.—The Masons of the Scottish Rite are making the most elaborate arrangements here for the celebration Feb. 18 of the fiftieth anniversary or golden jubilee of the order. The Ohio consistory has a membership of 2,800. The class of candidates numbers over 20 for the degree at the cathedral here next month. Among those who have signified that they will be present are Henry M. Palmer, thirty-third degree, the grand master of the Northern jurisdiction; James D. Richardson, thirty-third degree, the grand master of the Southern jurisdiction; deputies from the different states and members of the various supreme councils, including those of Canada and Mexico.

Schley to Speak.

Chicago, Jan. 18.—President H. A. Munger of the Hamilton club, which is to banquet Rear Admiral Schley at the Auditorium hotel next week, announced that the Hero of Santiago would make a speech and would have something to say of interest to the public. It will be Admiral Schley's first public address since the Sampson-Schley controversy first began.

Vaccination and revaccination of all children of school age has been compulsory in Germany since 1874, and in 1899, when this law had been in operation for twenty-five years, the total deaths from smallpox in 285 German towns, with a population of nearly 16,000,000, were only four. In France, where vaccination is far less universal, in 116 towns, with a population of 8,500,000, the deaths from smallpox in year 1899 were 600. This seems precisely the kind of parallel which is calculated to strike popular imagination, remarks an exchange. In Germany, out of 16,000,000 of people, four died of smallpox in a year. In France, out of 8,500,000 of people, 600 died of smallpox in the same year.

"A Bachelor's Honeymoon" Pleased Lexington People.

(Lexington Democrat.)
 "A Bachelor's Honeymoon," a most laughable farce in three acts, captivated a fair sized audience at the opera house Friday night. It is on the order of "Why Smith Left Home" and "Brown's in Town" variety of plays and not a musical farce as has been supposed. It is clean, bright, full of surprises and very well presented.

The cast, while it could be improved upon in two or three places, is fairly good, some of the characters being very well taken, notably those of Mr. Bachelor and the servant girl.

The climax of the piece is reached at the close of the second act, when for a period of ten minutes there was not a moment that the audience was not convulsed with laughter.

PUBLIC BUILDINGS.

Representative Kehoe Asks For an Appropriation of \$100,000 For One at This Point.

Congressman Kehoe Saturday introduced bills appropriating \$100,000 each for public buildings at Maysville and Cynthiana.

Mr. Kehoe will appear before the Public Buildings and Grounds Committee this week to advocate a favorable report on the two bills.

D. HUNT & SON

THE LEGISLATURE.

The Law Makers Have Lots of Material to Work on—Over Three Hundred Bills Now Pending.

The flood of bills in the Legislature continues. Friday's record was eighty-one, making a total of 319, of which 204 are House bills. Here are some of the new ones:

Requiring national bank officers to give the names of the bank stockholders for the purpose of assessment for taxation.

To repeal Section 4521, Article 14, Chapter 113, Kentucky Statutes, relating to compulsory education of children.

Requiring trust companies to give additional security, the same as individuals, when acting in the capacity of fiduciary.

Bill to take away the right of a citizen to have county guards appointed merely upon affidavit, whether or not the County Judge may deem it necessary.

Bill making employers liable to employees for injuries received through the negligence of a fellow-servant.

To amend charters of sixth-class cities by providing that the property in said cities shall be assessed by the County Assessor under separate heads and certified to the Board of Trustees.

Making it unlawful for telegraph companies to furnish reports to pool rooms, bucket shops and commission houses, and imposing a fine for each offense.

To prohibit the sale of adulterated baking powder.

Dividing the State into thirty-two Circuit Court districts.

By Senator Byron—To amend the law governing the selection of jurors by providing that if the grand or petit jurors first drawn from the wheel are exhausted before a jury is completed, more names must be drawn from the wheel and forthwith summoned, provided the Judge may in his discretion, if there be no more than three jurors lacking, direct the Sheriff to summon from the bystanders.

Mr. Rigdon's House resolution urging Congress to remove the tax on tobacco came up in the Senate and was strongly opposed by the Republicans, who seemed to feel that the attack made on the trusts in the preamble was not couched in as

respectful language as it should be. The Democrats defeated a motion to strike out the preamble and the resolution was then adopted by a vote of 28 to 3.

PITHY POINTS.

It's more abundantly demonstrated every day that Taylor didn't cross the river any too soon for his own comfort.

Some say that Taylor didn't know anything about the conspiracy to assassinate Goebel. It seems he knew enough to warrant him in running.

It may be that Culton has refreshed Taylor's memory on a few points connected with the Goebel assassination about which he claimed he knew nothing.

The more of the evidence brought out at the Frankfort trial that Taylor bears, the more will he commend his own foresight and prudence in crossing the river.

It isn't the first time in the history of criminals and crimes that those who are directly responsible for assassinations set up the claim that they are utterly ignorant of the whole matter, as the Goebel's assassins have done and are doing.

In all the evidence brought out as to who assassinated Governor Goebel no other names have ever been connected with the diabolical and hellish deed but those of the gang of cut-throats of whom Taylor was the leader and expectant beneficiary.

It's not altogether strange that Republicans won't admit that any of that Frankfort gang are guilty as to the matter of Goebel's assassination, seeing they don't think there was any guilt attached to the taking off of the Governor, this being the end wanted, desired and advocated by many of them.

The girl is the mother of the woman just as "the boy is the father of the man." The period when the womanly functions begin is one to be carefully watched and considered. Irregularity or derangement at this time may be promptly met and cured by the use of Dr. Pierce's Favorite Prescription. But neglect at this critical period may entail years of future suffering. "Favorite Prescription" acts directly upon the womanly organs giving them perfect vigor and abundant vitality. Told by Pain

If you have pains you should look after them quickly. Pain shows something is wrong. The sharper the pain the more danger there is in delay. There are thousands of women to-day who are bearing awful pain almost continually, rather than tell a physician about the shooting pains in their lower abdomen, about the agony of falling of the womb and the distress of leucorrhoea. They let the months pass and their trouble becomes harder to cure and more distressing. But modest women can secure exemption from the embarrassment of a private examination. When pain tells them of danger they can cure themselves by the use of

WINE OF CARDUI

in the privacy of their homes. You can be cured without distressing publicity. With these facts before you there is no reason for the delay which is increasing your misery and wasting the days of your life. Why not stop the pain today?

Bolen, Miss., March 9, 1900.
 I have used one bottle of Wine of Cardui and one package of Theobald's Black-Draught. Before I began to take your medicines I had pains in my back, hips, lower bowels and my arms. Sometimes I thought I would go blind. My head ached and I was so weak I could hardly walk across the floor. Now I can only feel a little of the pain in my side and I am going to use your medicines until I get cured, for I believe they will certainly cure me. I have been married twenty years and am the mother of seven children. I thank you for your wonderful medicine and what it has done for me.

WASHABLE CHAMOIS

GLOVES.

These gloves are in perfect condition, except they were soiled by use in window decoration. This is a defect easily remedied by soap and water. The sizes are 5 1/2 to 7. Colors, cream and white. Two clasp, stitched back. The gloves are exactly as represented—perfect in every way, except for the dust, which is no real hurt. If you'll take the gloves we'll give you four-fifths of the original price and the dust. Two months ago we were selling them for 75c., now they are 15c.

THE BEE HIVE

Sale Starts Tuesday! Sale Starts Tuesday!

A Remnant Sale!

We are taking stock. Taking stock at the Bee Hive is different from any other store. Our stock-taking is house-cleaning. Some stores think dusting off goods is house-cleaning. We don't! House-cleaning with us means every nook and corner in the store. It means getting out the short pieces that were put aside for full pieces during the rush. It means finding soiled goods that made room for clean ones during the rush. In fact it means house-cleaning as only housekeepers and the Bee Hive know how. To give all an equal chance, we will start this sale on Tuesday morning at 9 o'clock. ONE THOUSAND REMNANTS, consisting of Linens, White Goods, White Lawns, White Domestics, Dress Goods, Dress Gingham, Calicoes, Embroideries, Laces, Ribbons, Outings, Crashes, Percales, Silks, Crossbar Muslin, Chambray Gingham, Eiderdown, Velvets—none over ten yards, most of same two to four yards.

The Campaign For New Members For the Y. M. C. A. is Moving Along Nicely.

The Y. M. C. A. membership canvas is going at a high rate of speed. At the Friday night meeting it was decided to secure 100 new members by Feb. 1st. Part of this number have already been secured.

Every member of the association is urged to be present at the association rooms to-night at 7:30. Captains and Lieutenants have their uniforms on and are in the work.

Men should not wait to be asked to join the association. The young men of Maysville need the association, and every one has an interest in this special work for young men.

"Lover's Lane."

William A. Brady, a darling prospector in the dramatic field, has found another gold mine in Clyde Fitch's droll and dainty play—"Lover's Lane," which will be seen at the opera house, matinee and night, Saturday, Jan. 25th. "Lover's Lane" has duplicated the success of Mr. Brady's more familiar attraction, "Way Down East." It is a fresh, wholesome pastoral of small town life in New England, full of local color and realism.

The will of the late John Ballenger was admitted to record Saturday. His wife was named as executrix, but on her motion the Union Trust Company was appointed administrator with the will annexed. John Walsh, P. P. Parker and Andrew Clooney were appointed appraisers. Deceased bequeathed his entire estate to his wife.

TWENTY-ONE YEARS

In the Pen Was the Sentence Given Charles Gaskins For Killing James Ryan.

FLEMINGSBURG, Ky., January 18.—The jury in the case of Charles Gaskins, the negro who killed James Ryan, at noon to-day returned a verdict of manslaughter and fixed his punishment at twenty-one years in the penitentiary. The verdict was received with silence by the large crowd in the court room. It is said that on the first ballot five jurors favored a life sentence.

The prisoner accepted the verdict and seemed glad to be able to get away from the scene of his crime, and in the midst of the State militia was at once taken to the depot, where the train was boarded, and the party was soon on the way to Frankfort. Sheriff Obe Collins and Detective James Campbell had charge of the prisoner, and the streets were crowded with people when the party passed from the court house to the depot.

No unusual demonstration was made, and a feeling of relief was felt by Flemingsburg citizens when the train pulled out.

MAYSVILLE'S POLICE JUDGE.

The Courier-Journal Publishes Cut and Sketch of Hon. John Lamb Whitaker.

Saturday's Courier-Journal contained a sketch and cut of Hon. John Lamb Whitaker, Judge of the Police Court. The writer says: "John Lamb Whitaker has entered upon his duties as Police Judge of Maysville. He was elected for four years, and is well fitted for the office. He has had a successful career in local politics and has always been strong with the people. He can call nearly every voter in the city by his first name. His first race twenty years ago was for County Attorney, and he was elected. After his election it was discovered that he was not old enough to be eligible to the office and his opponent was appointed. As soon as Mr. Whitaker became old enough to hold the office according to law he ran again for County Attorney, and was elected. Four years later he was re-elected. He is a staunch Democrat, was a warm friend of the late Gov. William Goebel, and is a personal friend of Gov. Beckham.

JOHN BYERS CAMPBELL.

Descendant of a Pioneer of This Locality
Passes Away at His Home in the
West—Olden Days Re-
called.

Shortly following the announcement of the death of Hon. Wm. H. Eckman came that of his cousin, John Byers Campbell, another descendant of pioneers of this locality, son of Shelby Campbell, Sr., half a century ago a merchant of Aberdeen; also great grandson of Mathew Campbell who came to Limestone (Maysville) in 1788 after military service of six years, from 1775 to 1781, in the First Pennsylvania regiment, Continental Line. Among the twenty-six Argonauts who founded Cincinnati were Mathew Campbell and Evan Shelby. They embarked at Limestone the day before Christmas in flatboats and barges, descended the Ohio river amid floating ice, and on the 28th of December landed sixty-eight miles below Limestone at the foot of the present Sycamore street, Cincinnati. From their boats they built houses for shelter. The town site was surveyed during that winter and the corners of the streets were blazed on the trees.

So many flatboats landed at Limestone with emigrants about that time, that General Harmer, in building Fort Washington at Cincinnati, obtained the planks for it from boats bought at Limestone, and Ft. Washington was one of the most substantial wooden fortresses in the

Northwestern Territory. Alexander Campbell, a brother of Mathew, was killed by Indians a few miles Northwest of Maysville. Two brothers, Colen and Dugal, remained in the East. Mathew Campbell married a Miss Shelby, of a Shelby family east of Maysville, and the subject of our sketch John Byers Campbell was a grandson who honored the record of his ancestors.

Born sixty-two years ago at Aberdeen, educated in its excellent common schools, at the close of the Civil war he taught school in Winchester, O., where he married Mary, daughter of Dr. Grossman of that place, and soon moved to Fort Scott, Kan., since which time he has been one of the most widely known men of eastern Kansas. He opened a book store, organized temperance work through the West, was at one time postmaster at Ft. Scott, also served a term on the State Pension Commission. Later he located at Hiawatha, Kan., where he left a home. His widow, two sons and a daughter survive. Business called him to Armourdale, Kansas City, from which he visited his family nearly every week. He had become very fleshy, and was found dead in bed, of apoplexy. The day previous he had been engaged in his office and was apparently as well as ever. His funeral was under the auspices of the G. I. Ransom Post, G. A. R., of which he was a member. The post attended in a body, also the Chamber of Commerce of which he was President, and the Oddfellows.

On the Byers side of his ancestry he

was descended from one of the best families in Washington County, Pa. At the time of the Centennial celebration at Philadelphia the writer visited Washington, Pa., and found one of the professors in that valued Presbyterian College of the Byers line; found a Congressman, Lawrence, (for many terms in office) of the line on the maternal side. Creech's history of Washington County, Pa., illustrates that Congressman's residence and grounds magnificently. Many others were found in official place in church of this line. We rode out to the thousand acre original holdings of the Byers, then for the first time divided into three farms on account of the death of the last owner, a bachelor. As our carriage stopped in the road fronting the old homestead a lady walked out, remarking: "I suppose you are descendants of James Byers. They come here this centennial year from every State. Will you at least walk around to the wonderful spring? They all drink from it."

This house was claimed to be the best built, hewed-log house in the county, too good to be taken down, though built in Indian Times. We continued our drive to another of the divisions of the farm where a Mr. Tilton had just built a house. We were hospitably received there also. He conducted us to the Byers burying-ground on a beautiful knoll under an ancient tree. On one of the monuments we read, "Sacred to the memory of James Byers, a ruling elder in Presbyterian Church. Sacred to the

memory of his wife, Margaret Byers." Two of Mathew Campbell's sons were in the army in 1812. The Captain's uniform, of one of them, was in possession of one of the family till a comparatively late period. Evan, his son, built the first hotel in the township opposite Limestone. The first Legislature which met after the organization of Brown County, appropriated money for a State road ending at Limestone, and appointed commissioners under whose directions the money was to be expended. Evan Campbell was appointed for the southern end of the road. Thus we chronicle the demise of three of this line; all good citizens. We published five months since a brief notice of the death of John Byers Eckman, who long held a responsible position in railroad business at Indianapolis.

CINCINNATI TOBACCO MARKET.

Improvement Last Week in Quality and Price of Offerings—The New Higher Than Year Ago.

	1902.	1901.
New (bbls)	387	1,115
Old	577	987
Total offerings	964	2,092
Total rejections	183	291
Actual sales	781	1,791
Receipts	585	1,116

The 387 bbls. of new sold during the week averaged \$6.94 per 100 pounds, as against \$6.78 for the 267 bbls. last week and \$6.82 for the corresponding week last year.

The 577 bbls. of old averaged \$8.13 per 100 pounds, as against \$7.07 for the 265 bbls. last week, and \$7.54 for the 987 bbls. in the corresponding week last year.

The week's sales showed a decided improvement over the previous one, both in prices obtained and the character and quality of the offerings.

In the new-crop tobaccos, while it is generally heavy in body and good color is almost entirely lacking, it is averaging nearly a cent higher than at this period last year. Low and inferior types, under 7 cents—leaf, lugs and trash—were especially strong during the week, the demand for the finer sorts being less active.

Lee Spalding, local buyer for McDonald, the big Montreal manufacturer, was an active factor in the market throughout the week, and bought largely of the new red tips, ranging from 6½¢ to 7½¢.

In the old tobaccos under 7 cents the market was easier, with a slight shading in prices as compared with the previous week.

Good brights from 7 to 9 cents were stronger, and in fair demand under active competition among the manufacturers, quite a number of packages, of bright leaf and medium cutters selling at prices ranging from \$12 to \$15.75 per 100 pounds.

The quest for strictly good color and fancy cutters of the old crop still continues. Several private sales have been recently effected to Eastern and Northern manufacturers at 18 to 19 cents, who evidently feel they can buy these types cheaper now than they can later on under a higher general range in values.
